

1. APPENDIX:

REGULAR SCIENTIFIC SCHOLARSHIP POINT SYSTEM

Certificates to be attached to the application:

- The names of the documents attached to the application must match the category (pl.: TDK.3rdplace.jpg)!
- Certificates can only be attached in **PDF, JPG, JPEG and PNG** formats.
- All data necessary for the evaluation of the certified activity must be included (title of presentation, poster, article, author, place of publication, date, and topic in brief; as well as any results achieved with it). **In the case of an article, the activity cannot be taken into account without the date and place of publication!**
- In the case of an article, only articles that have already been published/accepted for publication and have the appropriate identifier (DOI, ISBN/ISSN number) can be accepted! Data for articles that have already been included in applications won in previous semesters cannot be submitted again.

At least one of the certificates that must be attached to the application must be from the following (in case of more than one, the appropriate certificate is required for all of them):

- Proof of academic competition results (document confirming placement)
- Proof of TDK results (photocopy of diploma, proof of placement and abstract of the applicant's work)
- Proof of publication of the article (first page of the article and abstract of the article – if the date and place of publication are not shown on these, then the first page of the publication page or table of contents is also required, which proves the place and time of publication)
- Proof of participation in the conference (title page of the abstract volume and the abstract in which the applicant's work appears)

Only results achieved during the period specified in the call for applications are eligible!

In case of topic matching, one performance (with the highest score) can be counted with full value, and the others with 50%!
