**Further conditions and procedures of application:**

Only reimbursement of costs already paid for may be requested by attaching a copy of **the original invoice issued on your own name certifying payment** – we cannot provide support for future costs in advance.

If the amount paid relates to more than one person, the invoice does not have to be for the name of the applicant. In this case either the invoice must state the amount relating to the applicant (e.g. registration fee) or the person to whom the invoice is issued must declare how the sum was split (e.g. shared accommodation).

**The event must take place between 09.05.2024 and 07.12.2024 20:00! If the applicant has been awarded a grant for the same event by TTK KÖB in the previous semester, no further partial grants can be requested for the same event!**

If the student has applied for a grant from ELTE, in this case the TTK KÖB will accept an invoice for the University (not in the student's own name). If any other grant has been awarded, the Commission can only award a partial grant.

If the payment was not made in HUF, the **exchange rate at the time of payment** must be attached!

Students who have been awarded a scholarship by the ELTE Talent Management Council for “active participation in domestic and international online or in-person academic competitions, conferences, and workshops, or for support of short research trips” are NOT eligible to apply for funding for the same expenses at the Faculty level

Applications may only be submitted for items **for which the applicant has not received a full grant from another source. You must submit a certificate of this!** Proof must be provided in the form of a written declaration from the supervisor. If the applicant student does not have a supervisor yet, a written declaration from the head of department is required. In the case of previous or parallel funding, please indicate for what and how much funding the applicant has received from other sources!

**Group applications are NOT accepted!**

An individual application may be submitted by one person during the application period, but may cover more than one event as defined in the call for proposals! In the case of multiple applications by

one person, the Commission will consider the most recent application submitted last and will reject all previous applications!

You can only apply for reimbursement of petrol costs if you provide a copy of your travel plan with a map showing the distance travelled, a technical document showing the consumption of the vehicle and a copy of the original invoice for the petrol costs in your name (if the document proving the amount paid is for more than one person, the student must indicate his/her share). **We also request official proof (from the supervisor, association leader, etc.) that the use of the vehicle is justified.**

**Eligible events:**

- scientific conference
- spring/summer/autumn/winter school
- academic competition in which the applicant is actively participating (competing)

**The following expenses are eligible only:**

- participation/registration fee, abstract submission fee
- poster printing fee
- accommodation costs (for the duration of the event)
- travel expenses

**The amount of the grant will be limited to the following:**

The amount per person per semester cannot be more than 100% of the student's normative amount **(166660 HUF)** and **a maximum of 80% of the amount per person can be subsidised**. If the 80% of the certified eligible item exceeds HUF 166660, the Commission will set the maximum amount of the grant at HUF 166660.

**Please note that the amount of money that can be awarded is determined by the applications received during the application period! If the payment would exceed the amount that can be used from the ISZTK budget, the Faculty Scholarship Committee will reduce the amount of the grant by a percentage/range that will remain within the available budget!**

Please round the amounts applied for to the minimum 100 HUF.

**Application result:**

The student will be informed of the result of the evaluated application via personal message in Neptun.

The personal data provided during the application process will be processed by the members of the TTK KÖB and their authorised representatives. These data will be used exclusively for the assessment of the submitted application and related tasks. Personal data will be processed in accordance with
